The program exposes children to the inter-related developmental domains of social and emotional development, communication, language and early literacy, mathematical thinking and scientific exploration, health and physical development.

Preschool Programs

Philosophy

Little Angels Early Learning Center believes that all children regardless of race, color, sex, disability, or religious background should experience a learning environment that encourages kindness, honesty, respect, compassion, and patience. All children should learn to become independent and proactive problem solvers in a loving and positive environment, fostering strong self-confidence and healthy self-esteem. We promote inclusive values that affect children's judgments and behaviors and provide a moral compass in a changing and challenging world. We recognize and affirm the vision and ministry of our host church, People's United Methodist Church, who welcomes, accepts, and affirms every child of God.
